**Fleet Cleaning**

## → Why Us?

We are a young company packed with energy and experience providing high quality fleet and commercial cleaning services.

We offer state-of-the-art technology, eco-friendly products and equipment, competitive prices, and excellent customer service.

We love to clean! We take pride in our attention to detail, staying safe, and remaining up to date with regular training and classes.

The owner is involved in the day-to-day operation and truly cares about customer satisfaction. This means we are fully accountable for everything we do.

## → Competitive Pricing

Our fleet washing rates are very competitive.

Our cost analyses show that whether you compare outsourcing your truck cleaning to us to washing your vehicles in house, taking them to a wash bay, or using another truck wash service, North American Exterior Cleaning gives you the best value for your money in these times of economic crisis.

If you are looking to reduce your fleet cleaning costs and expecting impeccable service, give us a call or reach us through email.

We can beat anyone's price and we will give you customized packages based on your specific needs.

## Maintenance Rinse

Sometimes you don't need a full wash, only a rinse. We will do a simple spray-down rinse of the vehicle.

## Maintenance Wash:

The maintenance wash includes a thorough rinsing of the vehicle, a hand brush wash using biodegradable soap, scrubbing the wheels and tires, and a final rinse to ensure that all soap is removed. The maintenance wash is the best value for an overall good, old-fashioned truck wash!

## Semi-Detail Wash:

The semi-detail wash includes a thorough rinsing of the vehicle, a hand brush wash using biodegradable soap, and using a degreasing agent if necessary, scrubbing the wheels and tires, spraying the frame rails to remove dirt and grease and a final rinse to ensure that all soap is removed. The semi-detail is a great value to keep your fleet looking its best year after year!

## Detail Wash:

The detail wash includes a thorough rinsing of the vehicle, a hand brush wash using biodegradable soap, scrubbing the wheels and tires, spraying the frame rails to remove dirt & grease, a final rinse to ensure that all soap is removed, tire shine application and a hand dry to ensure a spot free shine. Our detail service is unparalleled in quality, this service is one of a kind!
